The International Conference On Comparative Cognition

March 16 to March 18, 2000

Melbourne Beach Hilton Hotel Melbourne Beach, Florida

• with the cooperation of the School of Psychology, Florida Tech, Melbourne, Florida and the University of Alberta, Edmonton, Alberta, Canada

CO3 Steering Committee:

Mark Bouton, University of Vermont

Marcia Spetch, University of Alberta

Ed Wasserman, University of Iowa

R. Weisman, Queen's University (Chair)

Suzanne MacDonald, York University

Thursday evening, 6:30 PM to 10 PM

Concepts, Category Learning and Communication--Suzanne MacDonald, Chair

- Ed Wasserman (University of Iowa and Center for Research in Cognitive Neurosciences), Joel Fagot (Center for Research in Cognitive Neurosciences), Michael E. Young (University of Iowa): Same-different conceptualization by baboons (*Papio papio*): The role of entropy. 10 min
- **Joel Fagot** (Center for Research in Cognitive Neurosciences), Michael Young (University of Iowa), Ed Wasserman (University of Iowa and Center for Research in Cognitive Neurosciences): Relational matching by baboons. 10 min
- **Ilona Kovary**, H.S. Terrace, L. Brannon (Columbia University): The acquisition of numerical categories by rhesus macaques (*Macaca mulatta*). 10 min
- Jennifer Vonk, Suzanne MacDonald (York University): Natural concept formation in orangutans (*Pongo pygmaeus*). 5 min
- **Jeffrey S. Katz**, Anthony A. Wright, Jocelyne Bachevalier (University of Texas Medical School at Houston): Monkey concept learning. 5 min
- Bob Cook (Tufts University): Rule-based same-different learning by pigeons. 5 min
- Stephen Lea, Darren Burke (University of Exeter): Field experiments on concept discrimination in grey squirrels. 10 min
- Ron Weisman, Chris Sturdy, Leslie Phillmore (Queen's University): Natural auditory categories behave like screen-based visual categories. 20 min

10 minute break

Associative learning I--Ed Wasserman, Chair

- Bob Batsell (Kalamazoo College), John Batson (Furman University). Asymmetrical associations in augmentation? 10 min
- Francisco Arcediano, Daniel C. Burger, Martha Escobar, Ralph R. Miller (SUNY-Binghamton): Backward associations in humans. 5 min
- Chana Akins, N. Levens (University of Kentucky): The nature of the sexually conditioned response using auditory versus visual
 conditioned Stimuli. 5 min

- Stanley J. Weiss (American University), Leigh V. Panlilio (NIDA), David N. Kearns, Scott I. Cohn (American University) and Charles W. Schindler (NIDA): Biological constraints and appetitive-aversive interaction theory: An application to selective associations. 20 min
- Andy Baker (McGill University): Animal and human contingency learning: Radical behaviorism versus theory? 20 min

10 minute break

Communication, symbol and tool use--Mark Bouton, Chair

- **Karen Hallberg**, Sally Boysen, Kimberly Mukobi (Ohio State University): Chimpanzee food barks as referential signals: Evidence from a laboratory playback experiment. 5 min
- **Stephanie Gibeault**, Suzanne MacDonald (York University): Playback experiments with captive western lowland gorillas: preliminary results. 5 min
- Karyl B. Swartz (Lehman College/CUNY): Organization of memory by an orangutan. 10 min
- Michael J. Beran (Language Research Center, Georgia State University): Lana chimpanzee's 20-year retention of lexigrams. 5 min
- Mary Jo Rattermann, Roger Thompson, Theresa Franz, Andrei Cimpian, Melissa Hopkins (Franklin and Marshall College): Tool use in 12-18 month-old children and capuchin monkeys (*Cebus apella*) during a reaching task. 10 min

Friday evening, 4 PM to 8 PM

Face and object discrimination--Marcia Spetch and Debbie Kelly, Chairs

- Marcia Spetch (University of Alberta): Recognition of depth-rotated objects by pigeons and humans. 5 min
- Jack P. Hailman (Archbold Biological Station): Object concept: mini-review and experiments beyond permanence. 20 min
- Valerie A. Kuhlmeier and Sally Boysen (Ohio State University): Scale model comprehension by chimpanzees: Recognition of object and spatial similarity. 5 min
- Aaron P. Blaisdell, Frank Diaz, Bob Cook (Tufts University): Comparative psychology of face perception. 5 min
- **Sharon Himmanen** (Lehman College, CUNY): Memory for social attributes of facial stimuli by rhesus monkeys (*Macaca mulatta*). 10 min
- Jerry Cohen, Nicole Terrelonge (University of Windsor): Value transfer and reward signaling functions of S- in object discriminations. 10 min
- Roger Thompson, David Oden, Megan Hyle, Erica Hoy, Marc Rapuano, Jason Safro (Franklin & Marshall College): Habituation and dishabituation to physical and relational properties of objects by Capuchin monkeys (*Cebus apella*).10 min

10 min break

Associative learning II--Mark Bouton, Chair

- **Brian H. Smith,** Sathees Chandra (Ohio State University): The genetic basis underlying variability in latent inhibition and its potential role in a social context. 20 min
- Martha Escobar, Francisco Arcediano, Ralph R. Miller (SUNY-Binghamton): Context exposure modulates the CS- preexposure effect. 5 min
- Melissa Burns, Michael Domjan (University of Texas at Austin): Effects of exposure to contextual stimuli on the direction of conditioned responding. 20 min
- Mark E. Bouton, Ceyhun Sunsay (University of Vermont): Surprise, frustration, and the contextual control of appetitive conditioning. 10 min
- **Kimberly Kirkpatrick**, Russell M. Church (Brown University): Tracking of expected times until food in classical conditioning procedures. 20 min

10 min break

Memory and cognition--Ed Wasserman, Chair

- Lori Buchanan, Marcia Spetch, Debbie Kelly (University of Alberta): False Memory in Pigeons? 5 min
- Sue Healy (University of Edinburgh), T. Andrew Hurly (University of Lethbridge): Learning and memory in rufous hummingbirds.
- Tammy Moscrip, Herb Terrace (Columbia University), Holly Lisanby, Harold Sackheim (NYSPI & Columbia University): Cognitive and neurophysiological effects of transcranial magnetic stimulation in rhesus macaques. 5 min
- Michael F. Brown, Elizabeth DiGello (Villanova University): Psychology of a superorganism: The matching law, honeybees, and a honeybee colony. 5 min
- **Thomas Zentall,** Tricia Clement, Jessica Allen (University of Kentucky): "What did you just do?": Episodic-like memory in pigeons. 10 min.

 Alex Kacelnik, Jackie Chappell (University of Oxford), Juan Reboreda (University of Buenos Aires), Rebecca Smith, Fausto Britoe Abreu (University of Oxford): Scalar utility and risky choice in magpies, starlings, cowbirds and humans. 20 min

Saturday evening, 4-8 PM

Time, space and foraging--Marcia Spetch, Chair

- Brett M. Gibson (University of Toronto): Use of vector information but not cognitive maps for flexible navigation by Clark's nutcrackers and humans. 10 min
- Debbie Kelly, Marcia Spetch (University of Alberta): Pigeons' use of geometric information to locate a goal. 5 min
- Charles F. Flaherty, Mary Leszczuk, Danielle Mennona (Rutgers University): Reward reduction and searching patterns in a radial-arm maze. 10 min
- Shunji Awazu, Kazuo Fujita (Kyoto University): Transfer from cognitive food category to eating behavior in pigeons. 5 min
- James D. Rowan (Wesleyan College), Barbara E. Rowan (Georgia College and State University), Shannon Kundey, Christina Miner (Wesleyan College): Serial-pattern rxtrapolation in rats: If you "hum" a few bars, can they fake it? 10 min
- Robert Biegler, S. D. Healy (University of Edinburgh): Does food storing increase the capacity, duration or accuracy of spatial memory? 10 min
- Melissa Bateson (University of Newcastle, UK): Risk-sensitive foraging: context-dependent choice in two bird species. 20 min

10 minute break

- Kazuo Fujita, Tetsuro Matsuzawa, Aika Tokuhisa (Kyoto University): Spatio-temporal boundary formation in chimpanzees. 10
- Steven Haggbloom (Arkansas State University): More searching for abstract pattern learning in the radial maze. 5 min.
- Donald M. Wilkie, Christina M. Thorpe (University of British Columbia): "Time-place behavior" under unequal intervals. 5 min.
- Jonathon D. Crystal (University of Georgia): Circadian time perception. 10 min.
- Russell M. Church, Kim Kirkpatrick (Brown University): Data archiving. 10 min.
- Hank Davis (University of Guelph): Discrimination Between humans by animal subjects: A comparative approach. 25 min.

10 minute break

Cognition in marine animals--Suzanne MacDonald and Stephanie Gibeault, Chairs

- Stan Kuczaj, Marie Trone, Heather Hill, Karissa Tranel (University of Southern Mississippi): What can dolphin play tell us about dolphin cognition? 10 min.
- Stan Kuczaj (University of Southern Mississippi), John Gory (Southern Methodist University and The Living Seas, Epcot Center): Can bottlenose dolphins plan their behavior? 10 min.
- Heather Hill, Stan Kuczaj (University of Southern Mississippi): Sea lions use mirrors when searching for objects. 5 min.
- Jesse E. Purdy, Marte Martinez (Southwestern University), Matthew Purdy (Trinity University): Auditory and visual stimuli as determinants of anti-predatory behavior of salmon in salmon/killer whale interactions. 20 min.

Perspectives--Ron Weisman, Chair

- Fred Stollnitz (National Science Foundation): Funding opportunities at NSF. 5 min.
- **GROUP PHOTO** 5 min.
- Business meeting: The first annual comparative cognition society meeting. 30 min.

PARTY! 9 PM to??

Observers:

Christina Thorpe (University of British Columbia) Geoff Hall (University of York)

Karen Hollis (Mount Holyoke College) Janice Steirn (Georgia Southern University)

Karen Roper (Wake Forest University) Herb Terrace (Columbia University)

Sara Shettleworth (University of Toronto) Amanda Napolitano (Ohio State University) Theresa Franz (Franklin and Marshall College)

Jared Taglialatela (Georgia State Univ Language Rsrch

Lauren Baker (Georgia State University) Kymbr Wright (University of Southern Mississippi)

Tokuhisa Aika (Kyoto University) Sally Boysen (Ohio State University) Chrissy Miner (Wesleyan College) Shannon Kundey (Wesleyan College)

Marie Trone (University of Southern Mississippi) Suzanne MacDonald (York University) Kymbr Wright (University of Southern Mississippi)

Diana Lee (California State University)

Rachel Thames (University of Southern Mississippi)

Maurice Feldman (Queen's University)

Sheila Chase (Hunter College, CUNY)

Marc Rapuano (Franklin & Marshall College)

Eric Hoy (Franklin & Marshall College)

Karissa Tranel (University of Southern Mississippi)

Diana Lee (California State University)

John Batson (Furman University)

John Gory (Southern Methodist University and the Living Seas, Epcot

Center)

Eric Heinemann (Hunter College, CUNY)

Andrei Cimpian (Franklin & Marshall College)

Maurice Feldman (Queen's University)
